SOLLAGUA

Nature-Based Solutions and Living Labs for water reuse in rural areas

Préserver le capital naturel et renforcer l'adaptation
au changement climatique du SUDOE

Promouvoir la cohésion sociale et l'équilibre territorial
et démographique du SUDOE à travers l'innovation et
la transformation des secteurs productifs.

Promouvoir la cohésion sociale et l'équilibre territorial
et démographique du SUDOE à travers l'innovation
sociale, la valorisation du patrimoine et les services.

Renforcer les capacités d'impact du SUDOE
sur les territoires

Sollagua objectives

To promote adoptions of green solutions for the REUTE in rural areas by the means of NBS-WOLL and demosites with a main strategy to fit for purpose of the water needs

AOP

ReUSE demands

Irrigation,
live stock breeding, farming,
environment

Main Objective : to bridge the gap between demand and solution of reuse

Strategy for Nature-Based Water-Oriented Living Labs

01

**WHAT IS
THE NB-WOLL
STRATEGY?**

(nature-based water-oriented living labs)

SOLLAGUA seeks to promote nature-based solutions (NBS) for wastewater reuse in the SUDOE region, which faces significant

...with a "Fit for purpose strategy"

A NB-WoLL is an open innovation space where technologies and solutions are tested, developed, and validated in real-world environments.

Strategy and Action Plan for Nature- Based Water- Oriented Living Labs

Definition of a NB-WoLL Action Plan

The Action Plan is conceived as:

- a **practical implementation tool**,
- structured in **7 phases**,
- with **specific objectives**, and
- expected **outputs and results**.
- a collection of **illustrative examples and templates**

The document will be presented for feedback for a final iteration of the deliverable
